POLICY DOCUMENT ON THE GREEN CAMPUS

(2018-19 to 2022-23)

Dr. L. D. Balkhande College is a quality conscious college. It provides its own environment with its green campus initiative and keeps pollution free campus. Environment development is its basis work with the educational policies implemented on the campus. The green atmosphere of the college is largely due to tree plantation. There are different types of trees and plants in the campus. Trees have nearly covered the fencing area. They help to maintain the ecosystem. Planting of saplings by the Management, Principal, Teachers, large number of students and Staff at various functions, inbuilt an eco-consciousness in the college practices. Planting a large number of trees in the villages is one of the regular features of the NSS Camps. The trees are planted in the villages by the NSS volunteers and also at the places from where the admission process is remarkable to the college.

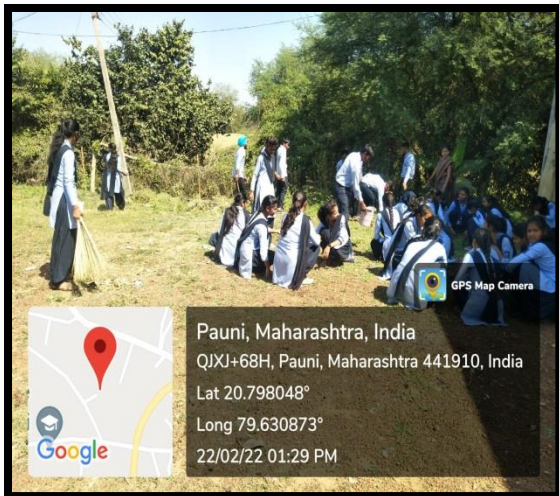

Our environmental policy :

- To create awareness regarding environmental policies amongst students, citizens and nearby villagers.
- As per the government, rules and regulations regarding the instructions of tobacco free campus sign boards are displayed at various places on the campus. Pollution free campus is maintained by avoiding tobacco chewing on the campus.
- To sensitize the students and staff regarding the use of drinking water properly for which we have provided purified (RO aqua-guard) drinking water facilities on the campus.
- To bring in the Rain Water Harvesting on the campus. We have collected the rain water from the college roof and it is used for watering the plants.
- To maximize the use of ICT and minimize the use of paper. It will help to go towards 'Paperless Office'.
- To reduce the sound pollution in the campus. We have planted trees around the campus.
- To use dust bins in the college campus so as to keep the college campus clean.
