### **Abstract**

*There is a constant migration for education, health, employment. To get a job People leave their place of origin and move to a place where employment can be found. Corona Lockdown were imposed across India to prevent the spread of infection. As a result, many lost their jobs. The question of abdomen arose. As a result, people travel thousands of miles on foot, in their own vehicles. Began to return to the village after traveling. Remember this matter of the government arrangements were made for his return to the village. For this, NGOs as well as individuals Helped.*

### **Introduction**

Leaving one place of residence for another, person or group for a longer stay This movement is called human migration Prehistoric human migration to the corners of the earth Evidence is available; In fact, settling down is considered a cultural evolution, and in the last few millennia Scholars believe that it happened. History of Aryan tribes from Northern Europe to South and then East Asia Migration (3rd millennium BC) Exodus of Hebrew slaves from Egypt to the north - Exodus- (13th century BC) | Some important examples are the migration of Arabs to the west coast of North Africa under the banner of Islam in the seventh century.

In the last four hundred years, Europeans have migrated to the Americas, Australia, North Asia and many parts of Africa They migrated to the country and established their own colonies. Europe
