Guidelines – Mentoring Cell

Rational: As academics began to undergo rapid changes due to CBCS system adopted by R. T. M. Nagpur University, Nagpur since 2016, Internal Quality Assurance Cell (IQAC) of Dr. L. D. Balkhande College of Arts & Commerce Pauni, Dist Bhandara identified the need to establish Mentoring Cell system from the beginning to onwards. The institute felt the importance of integrating promptly and effectively with the students. The Mentoring Cell system promises to provide a better understanding of individual students and bring out their highest potential. This system appears to be the most effective method for mitigating cases of drop-out students.

Objective: The main objective of the Mentoring cell is to look plan, execute and monitor the different kinds of guidelines to the students such as:

1. To provide more contact hours between mentor and mentee.
2. To maintain proper academic and attendance records of the students.
3. To minimize drop-out rates among students.
4. To identify slow learners and advanced learners.
5. To provide educational difficulties/problems among students.

Composition: As per the students admitted for UG Courses in the institution, the college IQAC's Mentoring Cell consists of all the permanent faculty members as the mentor of the mentee. Students are divided into groups depending on the number of students.
